Subpart A—General Requirements for Cooperative Services Grant Programs

SOURCE: 69 FR 23425, Apr. 29, 2004, unless otherwise noted.

§ 4284.1 Purpose.

The purpose of this subpart is to set forth definitions and requirements which are common to all grant programs set forth in this part administered by Cooperative Services within the Rural Business-Cooperative Service (RBS). Programs administered by the Business Programs within RBS are not affected by this subpart.

§ 4284.2 Policy.

It is the policy of Cooperative Services to administer grant programs as uniformly as possible to minimize unnecessary inconsistencies in the administration of the grant programs provided for in this part. The specific provisions or definitions provided in the subparts that are specific to Cooperative Services are supplemental to these general provisions. Where a specific program provision is expressly different from what is provided in this subpart, the program specific subpart shall prevail.

§ 4284.3 Definitions.

Agency—Rural Business-Cooperative Service (RBS), an agency of the United States Department of Agriculture (USDA), or a successor agency.

Agricultural Producer—Persons or entities, including farmers, ranchers, loggers, agricultural harvesters and fishermen, that engage in the production or harvesting of an agricultural product. Producers may or may not own the land or other production resources, but must have majority ownership interest in the agricultural product to which Value-Added is to accrue as a result of the project. Examples of agricultural producers include: a logger who has a majority interest in the logs harvested that are then converted to boards, a fisherman that has a majority interest in the fish caught that are then smoked, a wild herb gatherer that has a majority interest in the gathered herbs that are then converted into essential oils, a cattle feeder that has a majority interest in the cattle that are fed, slaughtered and sold as boxed beef, and a corn grower that has a majority interest in the corn produced that is then converted into corn meal.

Agriculture Producer Group—An organization that represents Independent Producers, whose mission includes working on behalf of Independent Producers and the majority of whose membership and board of directors is comprised of Independent Producers.

Agricultural Product—Plant and animal products and their by-products to include forestry products, fish and seafood products.

Cooperative Services—The office within RBS, and its successor organization, that administers programs authorized by the Cooperative Marketing Act of 1926 (7 U.S.C. 451 *et seq.*) and such other programs so identified in USDA regulations.

Economic development—The economic growth of an area as evidenced by increase in total income, employment opportunities, decreased out-migration of population, value of production, increased diversification of industry, higher labor force participation rates, increased duration of employment, higher wage levels, or gains in other measurements of economic activity, such as land values.

Emerging Market—A new or developing market for the applicant, which the applicant has not traditionally supplied.

Farmer or Rancher Cooperative—A farmer or rancher-owned and controlled business from which benefits are derived and distributed equitably on the basis of use by each of the farmer or rancher owners.

Fixed equipment—Tangible personal property used in trade or business that would ordinarily be subject to depreciation under the Internal Revenue Code, including processing equipment, but not including property for equipping and furnishing offices such as computers, office equipment, desks or file cabinets.

Independent Producers—Agricultural producers, individuals or entities (including for profit and not for profit corporations, LLCs, partnerships or LLPs), where the entities are solely owned or controlled by Agricultural Producers who own a majority ownership interest in the agricultural product that is produced. An independent producer can also be a steering committee composed of independent producers in the process of organizing an association to operate a Value-Added venture that will be owned and controlled by the independent producers supplying the agricultural product to the market. Independent Producers must produce and own the agricultural product to which value is being added.

Producers who produce the agricultural product under contract for another entity but do not own the product produced are not independent producers.

Majority-Controlled Producer-Based Business Venture—A venture where more than 50% of the ownership and control is held by Independent Producers, or, partnerships, LLCs, LLPs, corporations or cooperatives that are themselves 100 percent owned and controlled by Independent Producers.

Matching Funds—Cash or confirmed funding commitments from non-Federal sources unless otherwise provided by law. Unless otherwise provided, matching funds must be at least equal to the grant amount. Unless otherwise provided, in-kind contributions that conform to the provisions of 7 CFR 3015.50 and 7 CFR 3019.23, as applicable, can be used as matching funds. Examples of in-kind contributions include volunteer services furnished by professional and technical personnel, donated supplies and equipment, and donated office space. Matching funds must be provided in advance of grant funding, such that for every dollar of grant that is advanced, not less than an equal amount of match funds shall have been funded prior to submitting the request for reimbursement. Matching funds are subject to the same use restrictions as grant funds. Funds used for an ineligible purpose will not be considered matching funds.

National Office—USDA RBS headquarters in Washington, DC.

Nonprofit institution—Any organization or institution, including an accredited institution of higher education, no part of the net earnings of which may inure, to the benefit of any private shareholder or individual.

Product segregation—Physical separation of a product or commodity from similar products. Physical separation requires a barrier to prevent mixing with the similar product.

Public body—Any state, county, city, township, incorporated town or village, borough, authority, district, economic development authority, or Indian tribe on federal or state reservations or other federally recognized Indian tribe in rural areas.

RFP—Request for Proposals.

Rural and rural area—includes all the territory of a state that is not within the outer boundary of any city or town having a population of 50,000 or more and the urbanized area contiguous and adjacent to such city or town, as defined by the U.S. Bureau of the Census using the latest decennial census of the United States.

Rural Development—A mission area within the USDA consisting of the Office of Under Secretary for Rural Development, Office of Community Development, Rural Business-Cooperative Service, Rural Housing Service and Rural Utilities Service and their successors.

State—includes each of the several States, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and, as may be determined by the Secretary to be feasible, appropriate and lawful, the Freely Associated States and the Federated States of Micronesia.

State Office—USDA Rural Development offices located in each state.

Value-Added—The incremental value that is realized by the producer from an agricultural commodity or product as the result of a change in its physical state, differentiated production or marketing, as demonstrated in a business plan, or Product segregation. Also, the economic benefit realized from the production of farm or ranch-based renewable energy. Incremental value may be realized by the producer as a result of either an increase in value to buyers or the expansion of the overall market for the product. Examples include milling wheat into flour, slaughtering livestock or poultry, making strawberries into jam, the marketing of organic products, an identity-preserved marketing system, wind or hydro power produced on land that is farmed and collecting and converting methane from animal waste to generate energy. Identity-preserved marketing systems include labeling that identifies how the product was produced and by whom.

in accordance with USDA appeal regulations found at 7 CFR part 11 and subpart B of part 1900. If the Agency makes a determination that a decision is not appealable, a participant may request that it be reviewed by the Director of the National Appeals Division.

§ 4284.5 [Reserved]

§ 4284.6 Applicant eligibility.

An outstanding judgment obtained against an applicant by the United States in a Federal Court (other than in the United States Tax Court), which has been recorded, shall cause the applicant to be ineligible to receive any assistance until the judgment is paid in full or otherwise satisfied. RBS grant funds may not be used to satisfy the judgment.

§ 4284.7 Electronic submission.

Applicants and grant awardees are encouraged, but not required, to submit applications and reports in electronic form as prescribed in requests for proposals issued by USDA and in the applicable grant agreements.

§ 4284.9 Grant disbursement.

The Agency will determine, based on 7 CFR parts 3015, 3016 and 3019, as applicable, whether disbursement of a grant will be by advance or reimbursement. The Agency may limit the frequency in which a Request for Advance or Reimbursement may be submitted.
